Blokhuisplein 40

8911 LJ Leeuwarden

Audio Specs

PA:

Per side: 2x Dynacord Top
 2x Dynacord Sub

Monitoring:

5x RCF TT+

Control:

Midas M32R - DL32 stagebox

Mic's:

5x Shure SM58

4x Shure SM57

3x sE 8

1x Shure Beta 52A

3x Sennheiser e904

DI:

6x BSS AR133 Mono DI

1x Palmer Audionomix (Rack unit w/ 4 mono DI's, in rack next to DL32 Stagebox)

IMPORTANT!:

The Maximum sound limit in all of the Netherlands is 103 dB(A), measured over 15 min. If you travel with your own sound tech, we expect them to respect this. Believe us, it's loud enough ;)

Backline

Drums:

Ludwig Element Evolution

Kick 22"x18"

Tom 10"x08"

Tom 12"x09"

Floor 16"x16"

Snare 14"x5"

Hihat stand + clutch

2x Boom stand

Bass amp:

EBS Classic 450 Head + 4x 10" cab

Guitar:

Fender HotRod Deluxe III LTD (Hempback speaker)

DJ:

2x CDJ-2000 Nexus

2x SL1200

DJM-800

Lights:

Control:

Avolites Quartz into Showtec splitter, currently only 1 universe available, physical DMX line to FOH, pretty much no channels to spare unfortunately.

Lights:

24x Briteq Tornado 7, standard mode (GRID)

4x CLF Ares, 16 DMX mode (FLOOR, Movable)

6x Dimmer (Main front)

2x Dimmer (Extra front, special)

2x Dimmer (Hall lights)

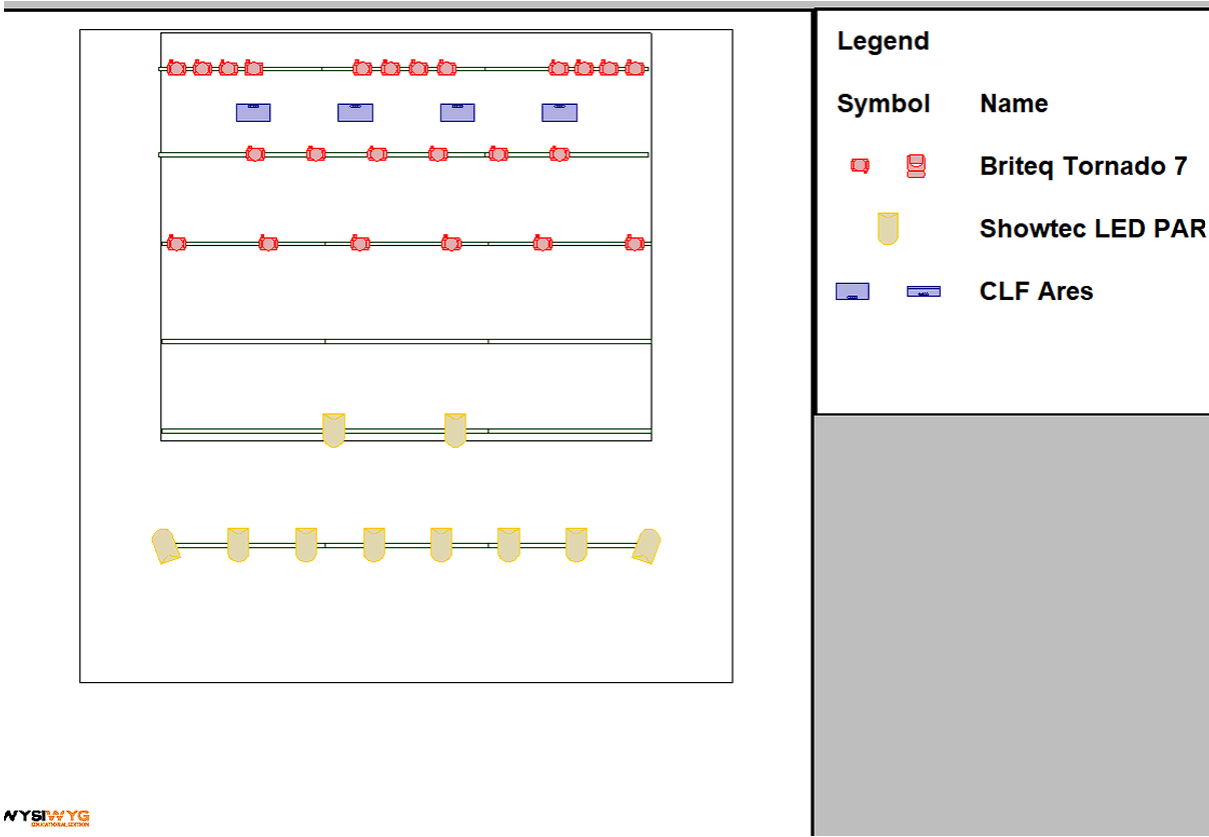

1x Hazer

IMPORTANT!

Due to us being in a historical building, the smoke alarm can't be turned off in all adjacent rooms. This means that we have to be very careful with our haze usage. If you travel with a lighting tech, our house tech reserves the right to interfere if there's too much haze. We hope for your understanding!

N.B.: Due to there only being 1 DMX line going to stage, floor packages will unfortunately not be possible most of the time. If you think there could be a way, or your lights don't take up a lot of DMX channels, please let us know in advance to double-check together!
